

Ayre

Fresh Ayre

The NEW Ayre AX-5 Integrated Amplifier is the result of fresh thinking. Featuring Ayre's new Diamond output stage, together with their exclusive EquiLock circuitry and a Shallco solid silver contact switch for gain control. The key to perfecting the Ayre AX-5 was to incorporate the Variable Gain Technology (VGT) of the award winning Ayre KX-R preamplifier in to the new output section. Like all Ayre components the AX-5 features fully discrete, fully balanced, zero feedback circuitry, ensuring the most musical performance.

In the words of Charles Hansen (CEO & Head of R&D at Ayre):

'In the simplest view, the Ayre AX-5 is an amalgamation of the Ayre AX-7 and the Ayre KX-R. Yet in another way, the AX-5 is the most radical integrated amplifier ever designed.'

The Ayre AX-5 will bring you closer than ever to your music.
